Dip Pandey

Software Engineer

Hobart, Tasmania, Australia

Summary

Hello, my name is Dip Pandey. Software Engineer
I have deep understanding and experience in developing web apps
through HTML5 , JS , CSS, Django, node js, React.js, mongodb,
next js, vercel deployment,
My arsenal of industry-standard software skills includes, but is not
limited to:

• Front-end Technologies: Proficient in HTML5, CSS3, JavaScript,
and frameworks like React.js and Angular.js, enabling me to create
visually appealing and interactive web applications.

• Database Management: Skilled in SQL and NoSQL databases
such as MySQL, MongoDB, and Firebase, facilitating efficient data
storage, retrieval, and integration with front-end systems.

• Design and Prototyping Tools: Expertise in Adobe Creative Suite
(Photoshop, Illustrator, After Effects), Sketch, and Figma, which aids
in crafting high-fidelity prototypes and compelling visual content.
• Development Tools and Environments: Experience with Visual
Studio Code, Git for version control, and familiarity with Agile
development methodologies to enhance team collaboration and
project management. Docker and other platforms knowledge for
DevOps
. Able to integrate industry leading AI into projects, currently on a
learning curve of AI and LLMs

Along with that, My interest in Art and Creativity has led me to work
in different design and film industries which i extremely enjoy.
